EERO FOR THE HOME

PARTNER WITH US

EERO FOR SERVICE PROVIDERS

Give your customers a world-class wifi experience.

[PARTNER WITH US](#)

eero for Service Providers is a turnkey solution offering you real-time insights, advanced security, and mesh wifi systems to ensure reliable connectivity throughout every room of your customer's home.

2022 04 18

Accelerate your business.

Reduce costs for your business.

Actionable network and business analytics help you save on operating costs overall.

Drive growth and customer retention.

eero offers world-class hardware to blanket every home with fast, secure wifi connectivity that works across devices.

Build a foundation for the future.

Future-proof your business by appealing to customers who want smart home capabilities and the latest wifi technology.

A whole-home wifi system that manages itself.

eero partners experience up to

29%

reduction in call volume, resulting in fewer truck rolls
and lower operation costs.¹

SETUP AND MANAGEMENT

CONNECTIVITY

TECHNOLOGY

Customers can set up whole-home wifi in just minutes using the co-branded partner app—and technicians can set things up remotely. Over-the-air updates bring new improvements you don't have to think twice about.

eero **Insight**

Proactively monitor your entire fleet.

As part of eero for Service Providers, **eero Insight** helps solve customer escalations before they happen. Your dashboard shows analytics across your entire fleet—along with network performance and overall trends so you know exactly where to focus.

Reduce time spent resolving
wifi issues by up to

10%¹

2022 04 18

Get more out of your existing system with our APIs.

APIs make it easy to integrate **eero Insight** with existing systems. With a flexible and tailored system for your business, your team can spend more time on innovation and less on troubleshooting.²

2022 04 18

eero Secure

Enhanced online security that increases customer retention by up to

30%¹

With world-class online security features from eero Secure, your customers get access to value-added services like parental controls, content filtering, threat protection, and ad blocking.

eero is part of the Amazon family.

With eero 6 systems' built-in Zigbee smart home hub and an Alexa device, customers can easily connect and control compatible devices on the network with Alexa.
